Frequently Asked Questions

FOOD ALLERGIES & RESTRICTIONS

We plan to offer a variety of healthy food choices at the program. If you have a serious allergy or restriction and would like to know the dinner options available in case of any concerns or queries, please email kseider@ciscrp.org.

WHAT IS THE GOAL/OBJECTIVE OF THIS EVENT?

AWARE for All is an educational program free and open to the public for the purpose of providing information to help people make informed decisions about clinical research participation. Since 2003, *AWARE for All* Clinical Research Education Day has been offered over 65 times in cities across the US, and we are enthusiastic to return to the Jacksonville community to offer this important program. CISCRP has teamed with research and community partners to provide quality speakers and information on clinical research, and nearly 100% of the 6500+ attendees have rated the program as excellent and highly informative. The program will feature free health checks, an Information Alley/Exhibit Area, meaningful presentations from prominent Jacksonville-based medical professionals and community patients, as well as free food and giveaways. For any additional questions, please feel free to email ellyngetz@ciscrp.org.

WHO IS CISCRP?

Founded in 2003, The Center for Information and Study on Clinical Research Participation (CISCRP) is a nonprofit organization founded for the purpose of educating the public, patients, the media, and policy makers in order to promote greater understanding and awareness of the clinical research process. CISCRP is not involved in recruiting patients for clinical trials, nor is it involved in conducting clinical trials. Our staff and board of advisors consist of individuals with highly diverse backgrounds: including government, clinical research, healthcare, and advocacy communities. CISCRP is funded by generous donations from a wide variety of sources, including individuals, research institutions, corporations and foundations.

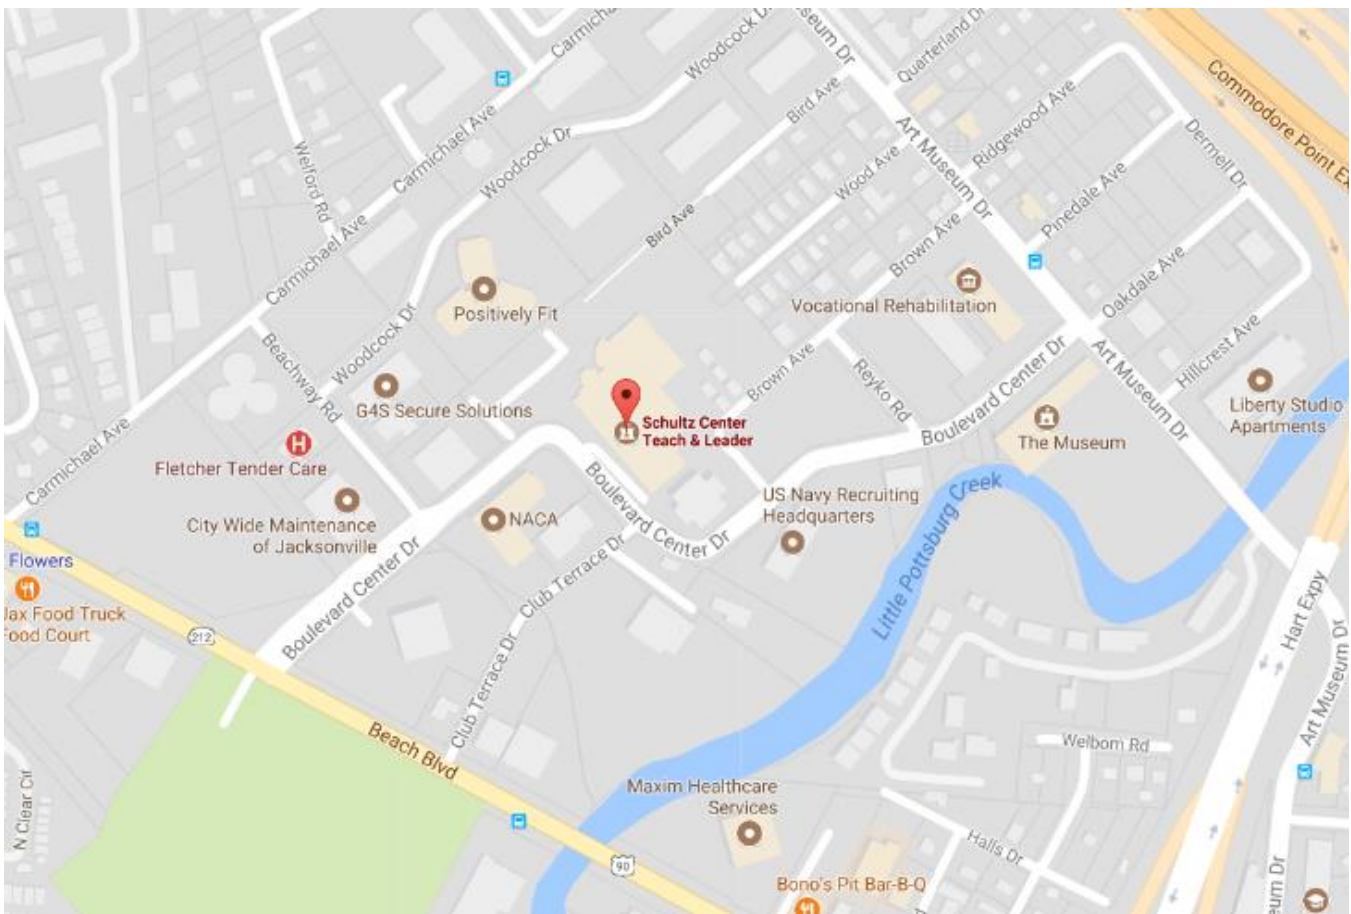

HOW CAN I HELP SPREAD THE WORD TO MY COMMUNITY?

Great question! We have a number of flyers, sample email blasts, social media posts, newsletter blurbs, etc. Please email cbudd@ciscrp.org to obtain these promotional tools.

ARE EXHIBITORS RECRUITING POTENTIAL STUDY PARTICIPANTS AT THIS EVENT?

No. Exhibitors will not be recruiting potential study participants at this event. The purpose is to provide education and empower our audience to make informed decisions about their health. That being said, our exhibitors will be providing information about their studies in case one is interested in learning more about the current research activity in Jacksonville.
