African Americans and Clinical Research

If you have ever taken a pill or been treated for an illness, you have seen the benefit of clinical trials. Each year, thousands of African Americans take part in clinical trials to help find ways to prevent, treat, and cure illness. Clinical trials help African Americans and all people enjoy better health.

The Center for Information and Study on Clinical Research Participation

Taking part in a clinical trial.

Every year millions of people make the courageous decision to participate in clinical research. Study participants form a partnership with researchers and health professionals, and play an important role in advancing knowledge about the nature of diseases and how to treat them.

What follows are questions that you should consider before choosing to participate in a clinical research study.
