

Resources Helping You Maximize Patient Engagement

CISCRP offers a portfolio of services to support patient engagement, clinical research education, and clinical trial participation for study volunteers, clinical research stakeholders, and sponsor organizations.

HEALTH COMMUNICATION SERVICES

DEVELOPING easy-to-read language & content for patients & the public.

RESEARCH SERVICES

PROVIDING insights to guide patient & public engagement in clinical research.

CONTENT LICENSING

OFFERING library of multi-language clinical research content for your company's educational needs -- video, web, digital, custom print.

INTERNATIONAL EDUCATION & AWARENESS

RAISING public & patient clinical trial literacy with educational messages & materials across different media channels.

COMMUNITY ENGAGEMENT

BUILDING public & patient awareness, trust & engagement.

SEARCH CLINICAL TRIALS

FINDING clinical trials across all medical conditions that are relevant to patient needs.

PATIENT ADVISORY BOARDS

CISCRP can conduct Patient Advisory Boards in a virtual environment, via a video-conferencing platform. This flexible model provides the opportunity to have global representation in a convenient, safe manner for participants.

TRIAL RESULTS SUMMARIES

Plain (or Lay) Language Summaries in printed, electronic & audio formats to accommodate different learning styles, that return clinical trial results & affiliated details to study volunteers & thanking them for their time & participation.

EDUCATION BEFORE PARTICIPATION

CISCRP is committed to engaging & building closer relationships with members of the public, clinical research volunteers, their families, caregivers, & clinical research professionals.
