NephU is supported by Otsuka Pharmaceutical Development & Commercialization, Inc. (OPDC) and Otsuka America Pharmaceutical, Inc. (OAPI) – committed supporters of the Kidney Health Community. The information provided through NephU is intended for the educational benefit of health care professionals and others who support care for those with kidney disease and other related conditions. It is not intended as, nor is it a substitute for, medical care, advice, or professional diagnosis. Health care professionals should use their independent medical judgement when reviewing NephU's educational resources. Users seeking medical advice should consult with a health care professional. No CME or CEU credits are available through any of the resources provided by NephU. Some of the contributors may be paid consultants of OPDC and/or OAPI.

What Is NephU?

NephU is a growing community where nephrology health care professionals engage, collaborate, and utilize resources to help improve future outcomes for those with kidney disease and other related conditions.

NephU™

Improving Awareness & Patient Outcomes

**Our Mission Is To Improve
The Future Outcomes For
Individuals With Kidney
Disease & Other Related
Conditions.**

Why Join The NephU Community?

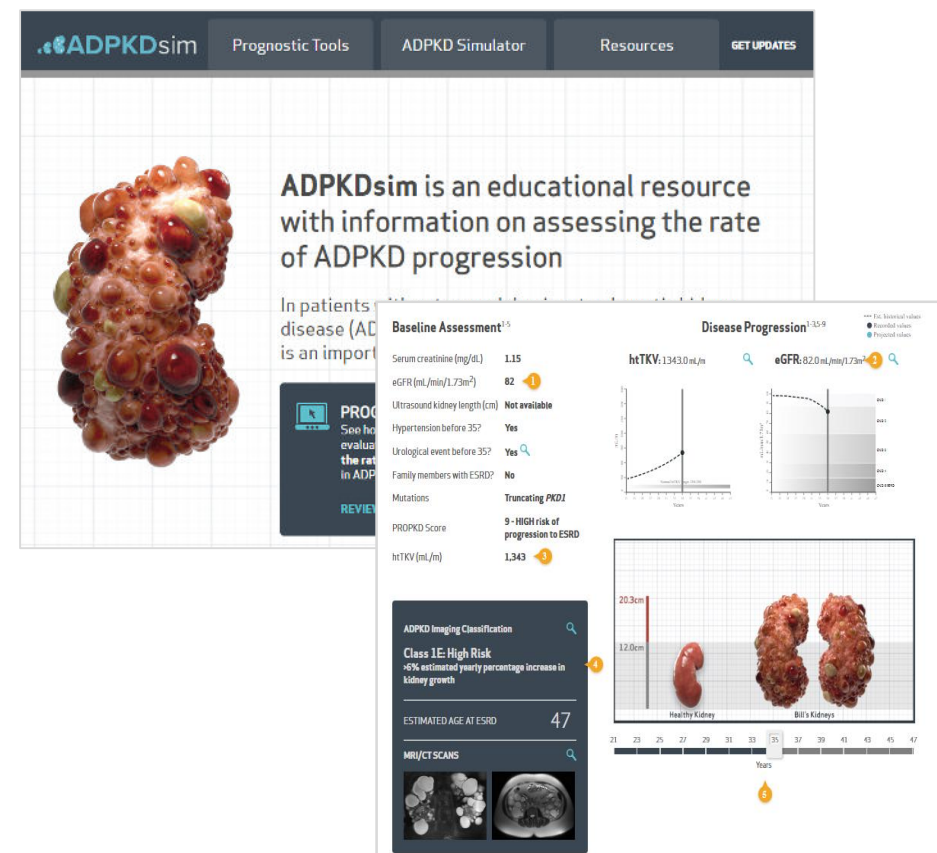

- Participate in **informative webinars** about hereditary kidney disease, general chronic kidney disease, renal replacement therapy options, and behavioral health of kidney disease patients.
- Attend events that provide a platform for education and **collaborative discussion** about the management of kidney disease and strategies to improve kidney health.
- Access our growing **on-demand library** of educational materials, tools, including the **ADPKD Simulator**, and resources curated for the health care community caring for patients with kidney disease and related conditions.
- Easily keep up-to-date on the **health care topics and policy changes** relevant to kidney health.
- Access **new insights from nephrology thought leaders and industry experts** through a variety of formats including video, audio, webinars, social media and more.

Access The ADPKD Simulator

The ADPKD Simulator is an educational resource with information on assessing the rate of ADPKD progression. It provides an overview of different prognostic tools and simulations of disease progression in hypothetical patient profiles.

- Learn about the prognostic tools and methods available to calculate Total Kidney Volume and assess the risk of disease progression.
- Evaluate hypothetical patient profiles and how different prognostic methods can help assess disease progression.
- Access resources on the disease and disease progression assessment.
- Other disease simulators will be featured on NephU.

Participate & Collaborate With NephU

Enrich the NephU community and your organization by becoming part of the ongoing conversation.

Become a member

- Create your NephU account to register for events or download materials. Join online at www.NephU.org.

Participate in community events

- From online webinars, to live events taking place throughout the country, NephU events provide opportunities to discuss management of kidney disease symptoms and other related conditions, innovative ideas from other clinicians, management and operations advice, and the latest industry trends.

Become a Supporting Organization

- Stand beside NephU as we aim to improve future outcomes for individuals with kidney disease and other related conditions...together.
