

Boehringer Ingelheim Honors CISC RP's Medical Heroes & Encourages Patient Participation from all Backgrounds

Value Through Innovation

Our family's science, your family's health

Boehringer Ingelheim is proud to work alongside the unsung heroes of clinical research and medical progress, including our patient participants, investigators and research staff that help lead the way to the identification of new medicines and therapies. We value the gift of patient participation from all backgrounds, especially as health disparities persist and the need exists to optimize diversity to promote balanced representation for all populations.

We are committed to advancing this change and taking steps by listening to our patients and striving to ensure their perspectives and inclusion are at the center of advancing public health and treatments available today, tomorrow and for future generations.

By putting lives first, we've created a legacy that lasts

For nearly 130 years, we have tackled some of the world's biggest health challenges and provided hope in the fight against disease, for both people and animals. Today, we continue our commitment to be the premier research-intensive biopharmaceutical company in pursuit of medical breakthroughs that benefit patients and society for today, tomorrow and generations to come.

where
science
meets **humanity**™

Biogen is proud to sponsor CISC RP's Medical Heroes

At Biogen, we are pioneering new science that takes us deep into the body's nervous system, and stretches wide across digital networks and patient communities, to better understand, and preserve, the underlying qualities of our essential human nature.

A sincere thank you to all medical heroes from the following organizations:

Science is resilient.
It can overcome diseases,
create cures, and, yes,
even beat pandemics.
It has the methodology
and the rigor
to withstand even
the most arduous scrutiny.
It keeps asking questions and,
until there's a breakthrough,
it isn't done.
That's why, when the world
needs answers, we turn to science.
Because in the end,
Science will win.

Scientific discoveries are made possible by the hundreds
of thousands of people who participate in clinical trials.
