

ROADMAP

Click on the number or road sign to learn more...

START

1

How do you find a clinical trial?

2

What are the basics of clinical trials?

3

How is clinical research different from receiving medical care?

4

Who is monitoring for patient safety and health during the trial?

5

Logistics: travel & expenses.

6

What is a placebo & why is it important?

7

Speak Smart: how to talk about participating in a clinical study.

8

Should my child join a clinical trial?

9

What to expect BEFORE the clinical trial begins.

10

What to expect DURING the clinical trial.

How to leave a clinical study.

YIELD

This way to exit.

11

What to expect AFTER the clinical trial ends.

THE END?

The Road After Research: Sharing Your Story.
