

# BE REPRESENTED

Clinical trial participants help make medical breakthroughs possible for people of all backgrounds. Learn how you can get involved at <https://www.pfizerclinicaltrials.com/>.

**“I have been a part of something that could one day change the lives of many people.”**

–Israel, clinical trial participant and community advisory board member

### **Listening and learning**

Community contribution is key to meaningful research, and here at Biogen we're committed to amplifying diverse voices in the clinical trial space.

When you take part in a clinical trial, you're helping to represent your family, friends, and entire community. And when everyone is represented, we can better develop potential medicines for all.

Visit [blogentrallink.com](https://blogentrallink.com) to learn how you can contribute to the greater good of medicine.

**Biogen.**

LILLY FOR BETTER

# LIVES

Our work extends beyond the medicines we create. Together, we're working to improve health and access to life-saving medicines in our local communities and around the globe.

Through partnerships and our signature volunteer programs, we aim to identify and promote successful solutions to health issues that can be scaled and replicated to make life better for people here at home and around the world.

**Learn more about our commitment to local communities and people everywhere at [lilly.com](https://www.lilly.com).**

# Finally, Clinical Trials that Work for You

Participation in clinical trials has never been easier. Through new devices and technologies and scheduled visits that are closer to home, today patients can participate in ways that are much more convenient and timely. To learn about clinical trials and the important role they play in advancing medical treatments for you, your loved ones, and people around the world, visit **CISCRP.org**.

A sincere thank you to all the medical heroes from the sponsoring organizations.
